NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2002

1. STATEMENT OF ACCOUNTING POLICIES

(a) Description of Scheme

The Local Government Superannuation Scheme Pool B (the Scheme) consists of Local Government members and was established, in accordance with sections 127 and 128 of the Superannuation Administration Act, 1996 (the Act). LGSS Pty Limited acts as trustee to the Scheme and holds in trust all assets of the Scheme.

The Scheme's custodial activities are provided by Commonwealth Custodial Services Limited (CCSL). The following Scheme managers perform the Schemes management activities:

☒ Cash Portfolio	100.00%	- Deutsche Asset Management (Australia) Limited
☒ Australian Fixed Interest Portfolio	74.23%	- Aberdeen Asset Management (Australia) Limited
	25.42%	- Superannuation Services Company Pty Limited
	0.35%	- Salomon Smith Barney
☒ Australian Equity Portfolio	80.60%	- Deutsche Asset Management (Australia) Limited
	10.06%	- Aberdeen Asset Management (Australia) Limited
	6.54%	- UBS Global Asset Management (Australia)
	1.92%	- Concord Capital
	0.84%	- Salomon Smith Barney
	0.04%	- State Street Global Advisors
☒ International Fixed Interest Portfolio	50.00%	- Loomis Sayles & Company LP
	50.00%	- Pacific Investment Management Company
☒ International Equity Portfolio	62.14%	- Deutsche Asset Management (Australia) Limited
	24.20%	- Standish Ayer & Wood Inc
	12.06%	- Salomon Smith Barney
	1.60%	- Barclays Global Investors
☒ Property Trust Portfolio	100.00%	- Superannuation Services Company Pty Limited
☒ Diversified Fixed Interest	100.00%	- Deutsche Asset Management (Australia) Limited
☒ Inflation Linked Bonds	85.32%	- Superannuation Services Company Pty Limited
	14.68%	- Salomon Smith Barney

The Scheme consists of Division C and Division D which are defined benefit schemes, whilst Division B comprises both a defined benefit component and a defined contribution component. All the divisions are closed to new members. The Scheme is a reporting entity for financial reporting purposes.

(b) Basis of Preparation

The financial report has been drawn up in accordance with Australian Accounting Standard AAS25 "Financial Reporting by Superannuation Plans", Urgent Issues Group Consensus Views, other applicable accounting standards, the provisions of the Trust Deed and other mandatory professional reporting requirements.

LOCAL GOVERNMENT SUPERANNUATION SCHEME POOL B

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2002

1. STATEMENT OF ACCOUNTING POLICIES (Continued)

(c) Investments

Investments are recorded at balance date at net market value, which comprises market value less estimated costs of disposal. Changes in net market value, representing gains or losses, are recognised in the Statement of Changes in Net Assets in the year in which they occur.

The valuation of each class of investment as at 30 June 2002 is determined as follows:

Short Term Investments	Market rates
Australian and International Fixed Interest	Market rates
Equities - Australian - International	Relevant stock exchange official quotation Valued at reporting date and translated into Australian dollars at current exchange rate
Property Trusts	Stock exchange official quotation
Real Estate Properties	Valuation by a registered valuer during the reporting period

(d) Foreign Currency Transactions

Foreign currency transactions during the year are converted to Australian dollars at the rate of exchange applicable at the date of the transaction. Amounts receivable and payable in foreign currencies at balance date are converted at the rates of exchange at that date.

(e) Income Tax

The Scheme has adopted the liability method of tax-effect accounting in accordance with the provisions of Australian Accounting Standard AAS 3 "Accounting for Income Tax (Tax-effect accounting)". The income tax expense shown in the Statement of Changes in Net Assets is based on the operating surplus or deficit adjusted for any permanent differences.

The tax-effect of timing differences, which occur where items are allowed for income tax purposes in a period different from that in which they are recognised in the financial statements, is included as a provision for deferred income tax or future income tax benefit as applicable at current taxation rates.

Future income tax benefits are not brought to account unless realisation of the assets is assured beyond reasonable doubt.

(f) Expenses

The Scheme's expenses are funded by capital transfers from both the Local Government Superannuation Scheme Pool A and Pool B.

LOCAL GOVERNMENT SUPERANNUATION SCHEME POOL B

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2002

1. STATEMENT OF ACCOUNTING POLICIES (Continued)

(g) Management Expenses

Scheme administration expenses, other than expenses of administering the death or invalidity insurance provision of the Scheme, are charged directly to members' accounts to the extent permissible by legislation.

Death or invalidity insurance expenses are charged directly to the Death or Invalidity Reserve.

Investment expenses are charged directly against investment revenue.

(h) Superannuation Contributions Surcharge

The superannuation contributions surcharge which may be payable by the Scheme under the Superannuation Contributions Tax (Assessment and Collection) Act 1997 is brought to account as a liability and an expense in the year when assessments are received from the Australian Taxation Office. The Trustee is unable to determine the amount of the surcharge until assessments are received from the Australian Taxation Office.

As the surcharge is levied based upon individual members' taxable income any surcharge for the year ended 30 June 2002 subsequently levied against the Scheme will be charged to the relevant members' benefits or otherwise dealt with in accordance with the provisions of the Trust Deed and relevant legislation. The benefits of members not subject to the surcharge will be unaffected.

(i) Goods and Services Tax (GST)

Where applicable, GST incurred by the Scheme that is not recoverable from the Australian Taxation Office, has been recognised as part of the expenses to which it applies. Receivables and payables are stated with any applicable GST included in their carrying amounts.

The amount of any GST recoverable from, or payable to, the Australian Taxation Office is included as an asset or liability in the Statement of Financial Position.

(j) Roundings

All values reported in the financial statements have been rounded to the nearest thousand dollars, except where otherwise stated.

(k) Comparatives

Where necessary, comparative figures have been adjusted to conform with changes in the presentation of the financial report in the current year.

7. FUNDING ARRANGEMENTS

For years ended 30 June 2002 and 30 June 2001, member and employer contributions for each of the schemes are determined on the bases described below. Employers in Local Government Superannuation Scheme Pool B were on a contribution holiday for the financial year (1 July 2001 – 30 June 2002).

(a) Division B Scheme

Member Contributions:	Each member elects to contribute between 1% and 9% (2001: 1% to 9%) of salary.
Employer Contributions:	Employers contribute on a fully funded basis as determined by the trustees based on actuarial advice. However during 2001/2002 all employers were on a contribution holiday.

(b) Division C Scheme

Member Contributions:	As the Scheme is 100% employer funded, there are no member contributions.
Employer Contributions:	Employers contribute on a fully funded basis as determined by the trustees based on actuarial advice. However during 2001/2002 all employers were on a contribution holiday.

(c) Division D Scheme

Member Contributions:	Each member contributes on a “rate for age” basis to individual pension units which become available with salary increases. Members may elect to abandon units where total contributions payable would exceed 6% (2001: 6%) of salary.
Employer Contributions:	Employers contribute on a fully funded basis as determined by the trustees based on actuarial advice. However during 2001/2002 all employers were on a contribution holiday.

8. LIABILITY FOR ACCRUED BENEFITS

The value of accrued benefits has been determined on the basis of the present value of expected future payments which arise from membership of the Scheme at the date of the actuarial review. The value of the accrued benefits was calculated by the actuary as part of the comprehensive actuarial review, which was performed as at 1st July 2000.

The figure reported has been determined using the assumed future salary increases, future Scheme earnings and other relevant actuarial assumptions used in the actuarial review.

12. FINANCIAL INSTRUMENTS

The information pertaining to financial instruments set out below is made in accordance with the provisions of AAS33 "Presentation and Disclosure of Financial Instruments".

For the purpose of these financial statements, a financial instrument is any contract that gives rise to both a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments include both primary instruments (such as receivables, payables and equity securities) and derivative instruments (such as financial options, foreign exchange transactions, forward rate agreements and interest rate and currency swaps). The Scheme's monies are invested in a variety of financial instruments included in the asset classes summarised in Note 1.

(i) Credit Risk Exposures

The net market value of financial assets, including derivatives, included in the financial accounts represents the Scheme's exposure to credit risk in relation to those assets.

The Scheme does not have any significant exposure to any individual counter-party or industry. Its assets are invested by individual investment managers and in specific investment trusts.

(ii) Liquidity Risk Exposures

Liquidity risk is the risk that there are insufficient liquid assets available to pay the beneficiaries of the Scheme. This risk is managed by assessing on both a short term and long term basis, the Scheme's cash flow requirements.

(iii) Derivatives

Derivatives are used in managing portfolios as a hedge against market movements in the values of physical assets and as a means of effecting a change in the asset mix of the investment portfolio of the Scheme. Derivative instruments currently used are futures contracts and forward rate agreements.

All derivative contracts are written against cash, physical securities or other specific commitments and are not leveraged. Derivatives are not used for speculative purposes. These activities are undertaken within authorized limits.

At 30 June 2002, the nominal principal amounts and net fair value of derivatives held by the Scheme are as follows:

30 June 2002	Notional Principal Amounts \$'000	Net Market Value \$'000
Australian Fixed Interest Futures	7,991	(71)

(v) Interest Rate Risk

The Scheme invests in financial assets for the primary purpose of obtaining a return on investments on behalf of its members. The Scheme's investments are subject to interest rate risks and the return on the investments will fluctuate in accordance with movements in the market interest rates.

The Scheme's investment at 30 June 2002 involve cash and cash equivalents, longer dated fixed interest investments and equities. Longer dated fixed interest investments result in the Scheme having exposure to interest rate movements.

The Scheme's exposure to interest rate risk and the effective interest rates on financial instruments at 30 June 2002 are shown as follows. All other financial assets and liabilities are non-interest bearing.

(vi) Net Fair Values of Financial Assets and Liabilities

The Scheme's financial assets and liabilities are included in the Statement of Net Assets at amounts that approximate net fair value.

(vii) Net Fair Values Disclosures

The following methods and assumptions are used to determine the net fair values of financial assets and liabilities:

Cash, cash equivalents and short term investments: The carrying amounts approximate fair value because of their short term maturity.

Non-current investments/securities: For financial instruments traded in organised financial markets, fair value is the current quoted market bid price for an asset, adjusted for transaction costs necessary to realise the asset. For investments where there is no quoted market price, the last sale price or calculated underlying value is used, adjusted for transaction costs.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2002

13. SEGMENT INFORMATION

Primary Segment

Business Segments

The Scheme operates solely to provide benefits to its members in accordance with the Trust Deed and provisions of SIS.

Secondary Segment

Geographical Segments

The Scheme operates in Australia and the primary assets it invests in on behalf of its members are managed and administered in Australia. The members of the Scheme are based in Australia.

14. SUBSEQUENT EVENTS

As described in Note 1, the Scheme values its investments at net market values prevailing at the reporting date and reflects all changes in net market values during the year in the Statement of Changes in Net Assets for that year. Since the balance date there has been a significant increase in the volatility of investment markets.

Consequently, it is possible that there have been significant changes in the reported values of the Scheme's investments since that date. These movements may have a material adverse impact on the reported financial performance of the Scheme during the subsequent financial reporting periods.
