Buy-sell spreads

A **buy-sell spread** is a fee to recover transaction costs incurred by the trustee of the superannuation entity in relation to the sale and purchase of assets of the entity.

Indirect cost ratio

The **indirect cost ratio** (ICR), for a MySuper product or an investment option offered by a superannuation entity, is the ratio of the total of the indirect costs for the MySuper product or investment option, to the total average net assets of the superannuation entity attributed to the MySuper product or investment option.

FOLLOWING ARE THE VARIOUS FEES AND COSTS THAT MAY BE CHARGED TO YOUR ACCOUNT

Switching fee

If you choose to change your investment option(s), the investment switch will normally incur a switching fee of \$27.00. This fee is deducted directly from your account.

A switching fee will not be charged when an account balance is transferred to the Managed Cash investment option upon the death of a member.

Request for Family Law information fee

This fee is for the provision of information about a member's account relevant to a Family Law split.

The fee is \$110 per request and is payable by the eligible person requesting the information. The payment should be provided in the form of a cheque or money order made payable to LGSS Pty Limited.

Benefit split fee

This \$88 fee associated with a Family Law court split is generally paid by the member and non-member spouse in equal parts. The member's share of the fee is deducted from their account and the non-member spouse's share is deducted from the non-member spouse's splittable payment prior to transfer of the payment out of Active Super.

Administration fee

Active Super charges an administration fee in two ways:

1. We charge \$1.37 per week (\$71.24 p.a.). This is deducted directly from your account balance; and
2. We charge a fee of 0.25% p.a. that is paid from Active Super's assets prior to unit prices being calculated.

The percentage-based administration fee is charged through the unit prices and redeemed on a monthly basis. The balance is then paid to LGSS Pty Ltd. Any excess funds within the Trustee bank account are transferred to the Administration Reserve.

The Administration Reserve is utilised to fund strategic projects within Active Super to drive better outcomes for members.

Investment fee

Investment fees are those fees that relate to the investment of the assets of Active Super. These fees are incurred directly by the Trustee for the exercise of care and expertise in the investment of those assets and may include management fees, transactional and operational costs¹, performance related fees² and custody fees.

Investment fees are paid from Active Super's assets prior to unit prices being calculated.

Indirect cost ratio (ICR)

Indirect costs are those costs associated with Active Supers investments in interposed vehicles such as underlying unit trusts or limited partnerships.

Indirect costs are paid from Active Super's assets or the assets of interposed vehicles prior to unit prices being calculated. This cost is an additional cost to your investment and is not a fee paid to or charged by Active Super.

The fees and costs for each investment option are shown below.

ADDITIONAL EXPLANATION OF FEES AND COSTS

Some of our transactional and operational costs are included in the calculation of our overall investment fee and ICR, but there are other transactional and operational costs which aren't included. These are built into the trading prices of assets and therefore can only be estimated. These costs are known as implicit transactional and operational costs. These costs are not recoverable and are an additional cost to the Investor.

Transactional and Operational costs

Transactional and operational costs are incurred by the investment manager's buying and selling of investments and may include costs such as brokerage¹, buy-sell spreads of the underlying investments, settlement costs², stamp duty³ on investment transaction costs and clearing costs⁴.

The transactional and operational costs are included as part of the Investment fee and/or ICR, depending on the type of underlying investment.

Based on information provided by the investment managers we invest with, estimated transactional and operational costs incurred in the Fund's underlying investments range from an estimated 0.01% p.a. to 0.27% p.a.

Borrowing costs

Borrowing costs for Active Super are costs that relate to a credit facility that is provided to the Fund's investments in an underlying interposed vehicle.

Based on information provided by the investment managers we invest with, estimated borrowing costs incurred in the Fund's underlying investments range from an estimated 0.00% p.a. to 0.07% p.a.

Importantly, past borrowing costs are not a reliable indicator of future borrowing costs.

Financial Planning fee (Advice fee)

Active Super charges members a direct fee for some financial planning services. Not all financial advice incurs a fee and in many cases there is no charge. Whether or not a fee applies depends upon the complexity of the financial advice you require. Your financial planner will discuss any fee payable when meeting with you and if a fee applies, we will advise you of the cost before you decide to proceed with obtaining the advice.

Performance fees

The Trustee has entered into performance fee agreements with certain investment managers, which are closely monitored.

Performance fees are payable when investment returns exceed an investment manager's benchmark and form part of the investment fee. If the investment returns are below each manager's benchmark, no performance fee is payable until the underperformance has been made up.

¹ Brokerage: The fee or commission charged by a firm for executing buy and sell orders on assets on behalf of the Investment Manager.

² Settlement costs: Expenses incurred with the purchase and sale of underlying assets.

³ Stamp Duty: The tax placed on equity trades in certain markets (UK, for example) or on the transfer of property.

⁴ Clearing costs: A fee charged by a clearing house for its services. A clearing house is an intermediary between buyers and sellers, most commonly used when trading futures (financial contracts obligating the buyer to purchase an asset or the seller to sell an asset, such as a physical commodity or a financial instrument, at a predetermined future date and price).

Performance fees are included as part of the Investment fee and/or ICR, depending on the type of underlying investment.

Table 1 – Estimated Transaction and Operational costs, Borrowing costs and Performance related fees per investment option as at 30 June 2020.

INVESTMENT OPTION	TRANSACTIONAL AND OPERATIONAL COSTS (%)	BORROWING COSTS (%)	PERFORMANCE FEES (%)
High Growth	0.25%	0.05%	0.06%
Balanced Growth	0.26%	0.05%	0.06%
Balanced	0.27%	0.06%	0.06%
Conservative	0.25%	0.07%	0.09%
Managed Cash	0.01%	0.00%	0.04%

Buy-sell spread

A buy-sell spread is the costs associated with investing in, switching between or withdrawing from the investment options.

All costs associated with any of these transactions (including brokerage and commission) are taken into account at the time of valuation for the investment option. Currently Active Super does not apply a buy-sell spread for any of these transactions.

Payments to authorised representatives

Authorised Representatives of Active Super receive remuneration by means of salary only. No commission is paid by Active Super or members. You will only be charged an advice fee if you agree to receive personal financial advice from one of our financial planners, and the fees will be discussed and agreed with you at the time.

Information on abnormal expenses

The costs set out in this fact sheet do not incorporate an allowance for abnormal expenses (if any) to which the Trustee is entitled to be reimbursed from Active Super. At the date of this fact sheet, we do not anticipate any abnormal expenses to be paid.
